

## Week 14: Story Telling

m EMSE 4572 / 6572: Exploratory Data Analysis

2 John Paul Helveston

**December 06, 2023** 

## Week 14: Story Telling

- 1. Telling a story
- 2. Designing slides
- 3. Giving a talk
- 4. "Final" thoughts

## Download this cheetsheet for today's content

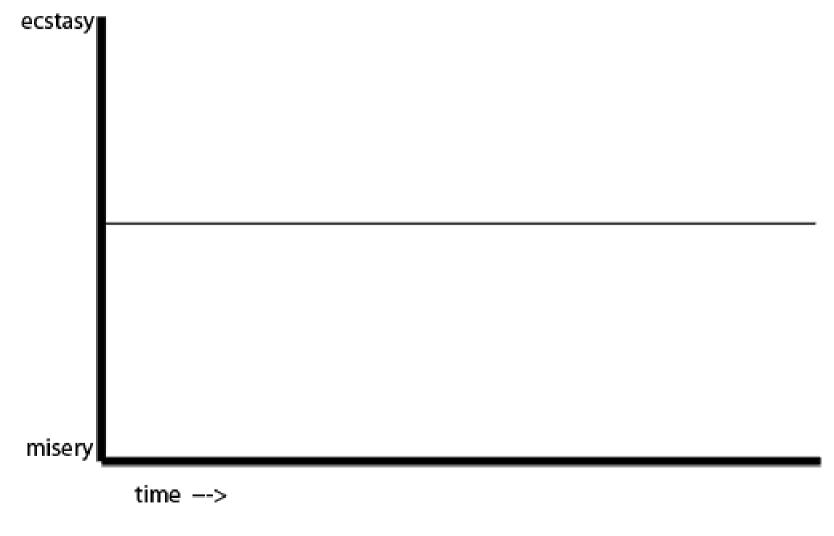

## Week 14: Story Telling

- 1. Telling a story
- 2. Designing slides
- 3. Giving a talk
- 4. "Final" thoughts

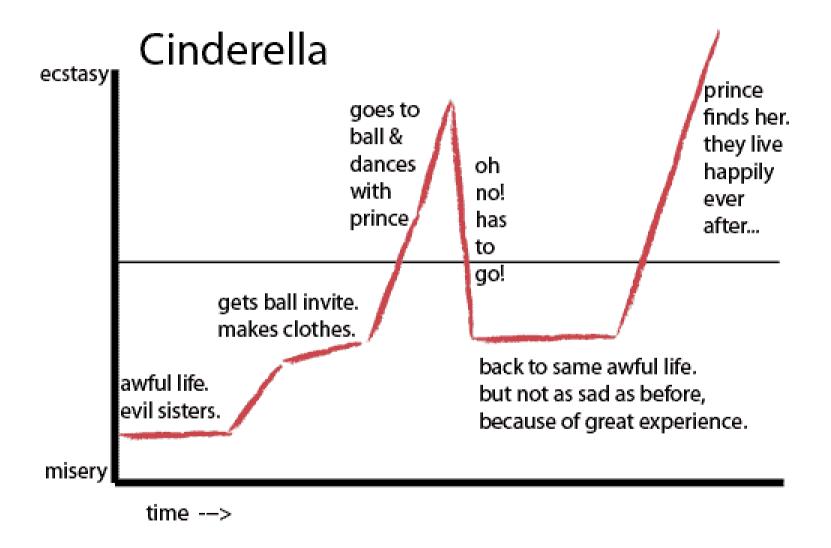

## What is a story?

A story is a set of observations, facts, or events...that are presented in a specific order such that they create an **emotional reaction** in the audience.

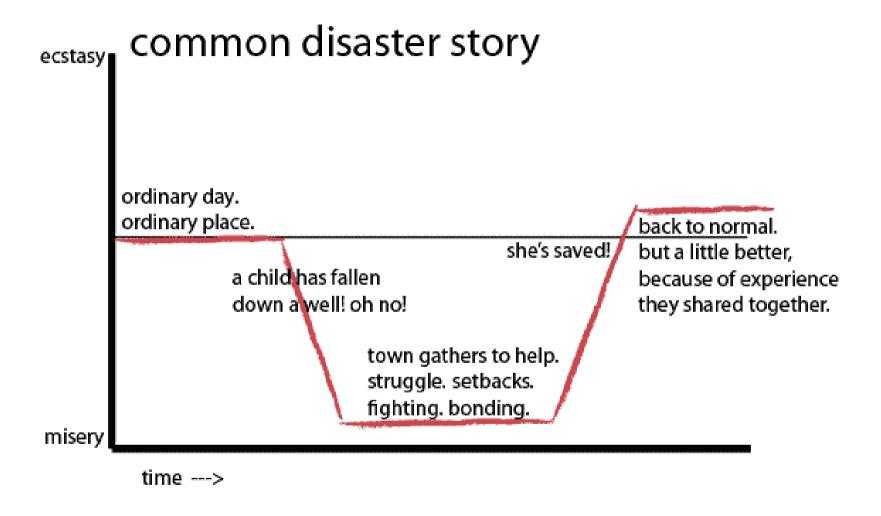

- Clause O. Wilke (2019), Chp. 29

#### Freytag's Pyramid

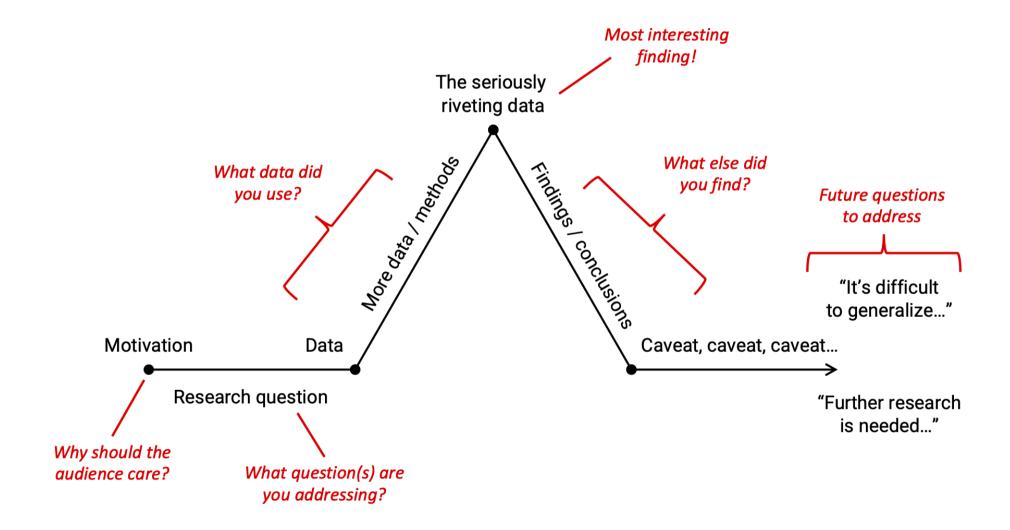

#### Freytag's Pyramid: King Kong

#### Freytag's Pyramid: Research Project

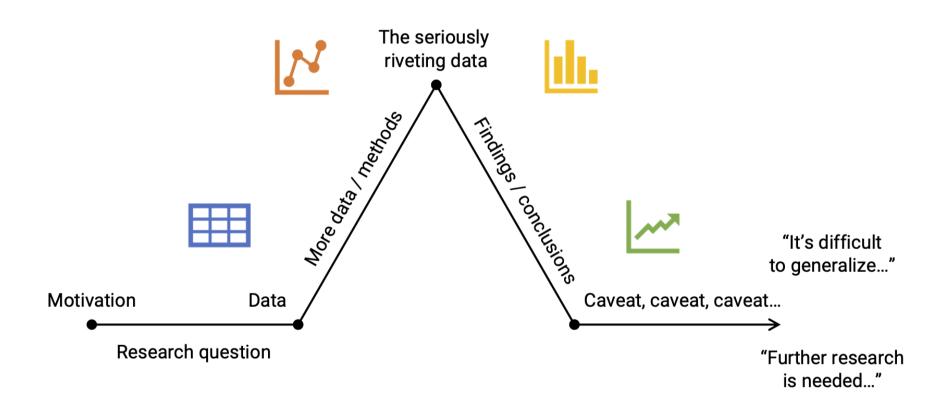

#### Freytag's Pyramid: Research Project

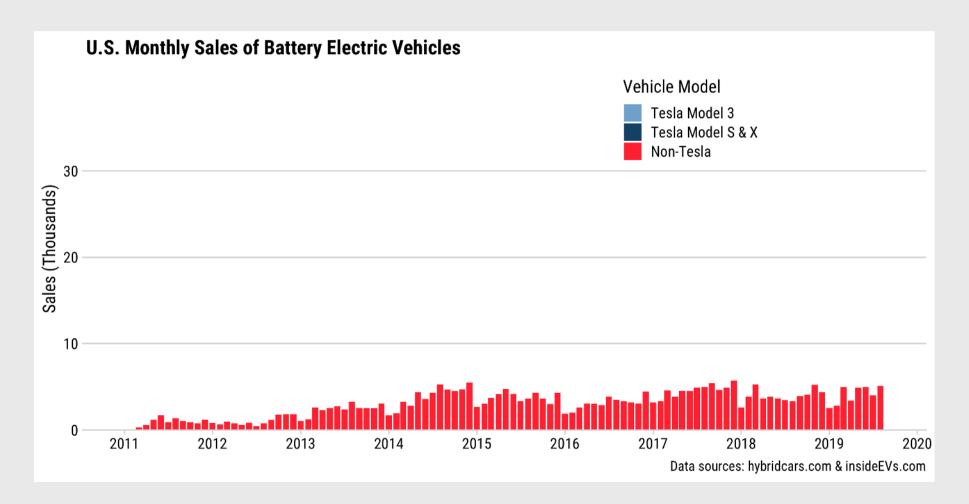

"A single (static) visualization will rarely tell an entire story"

- Clause O. Wilke (2019), Chp. 29

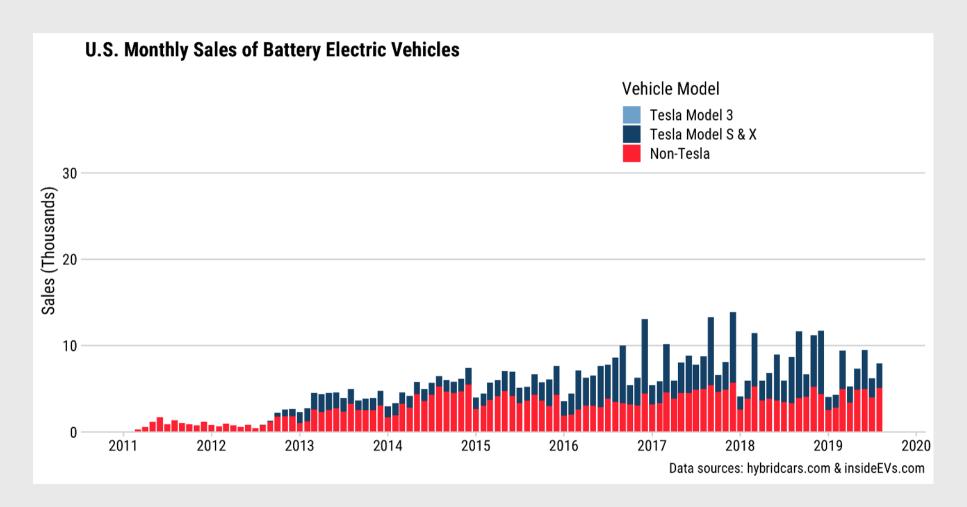

#### Freytag's Pyramid: Research Project

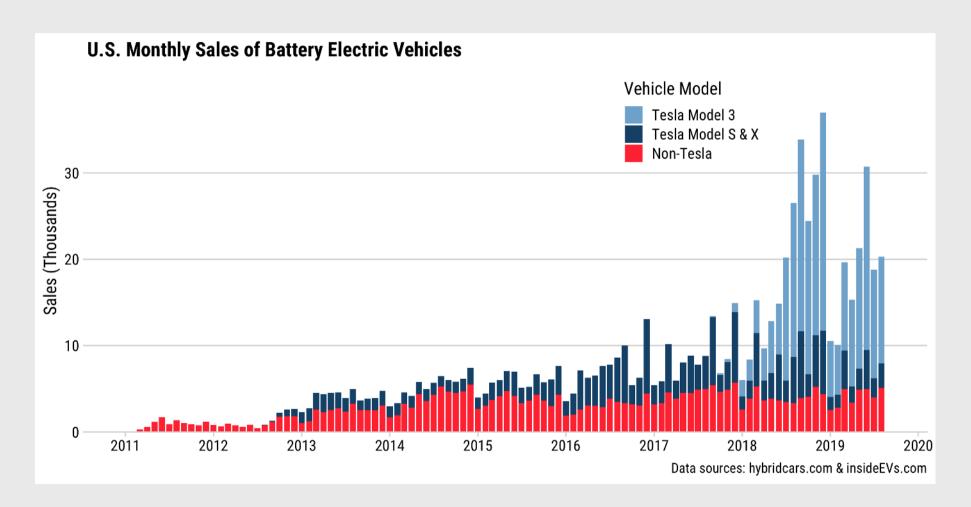

#### Use layers to build tension / provide context

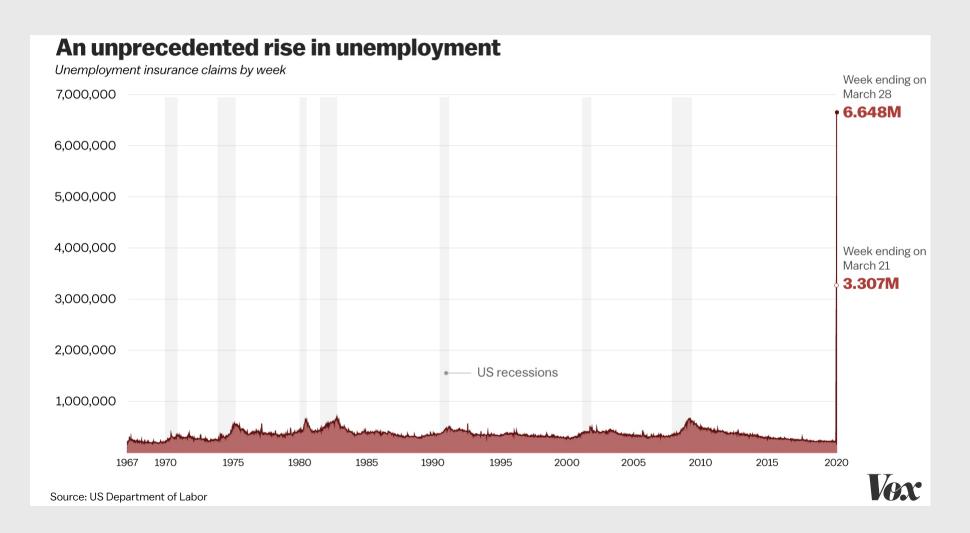

#### Use **layers** to build tension / provide context

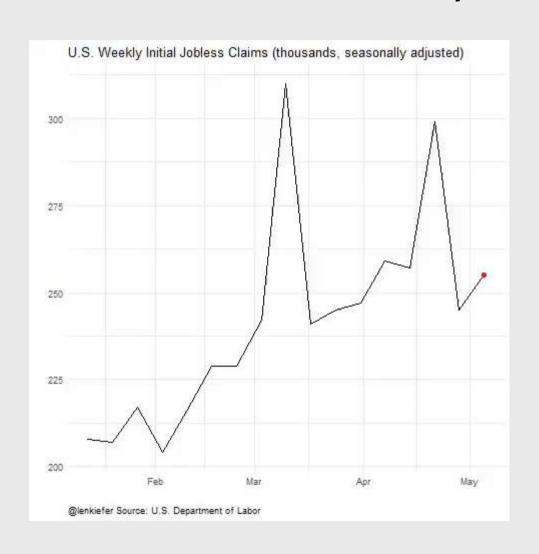

#### Use layers to build tension / provide context

#### Use animation to build tension / provide context

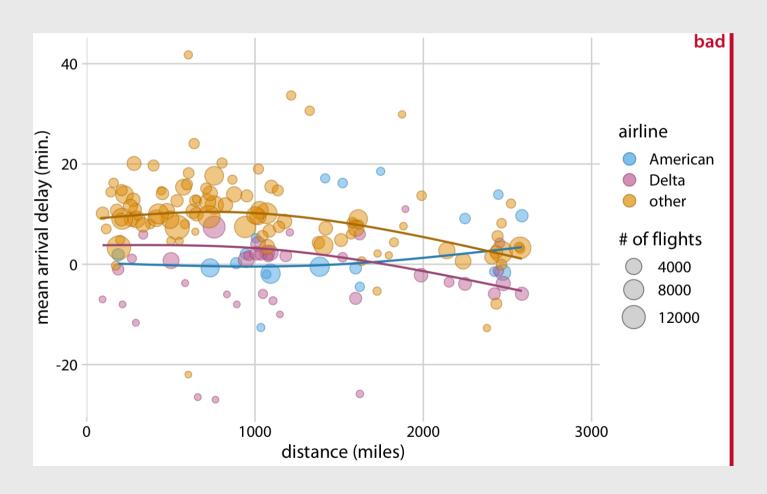

#### Use animation to build tension / provide context

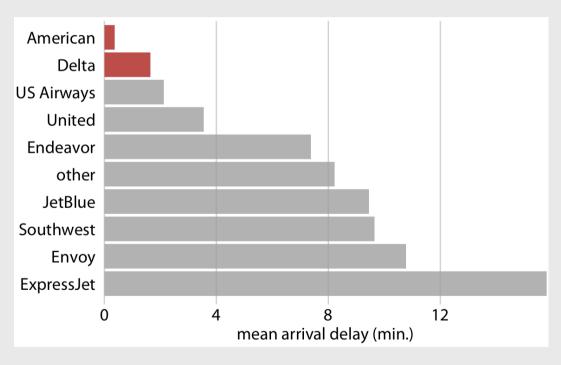

#### Make charts for the generals

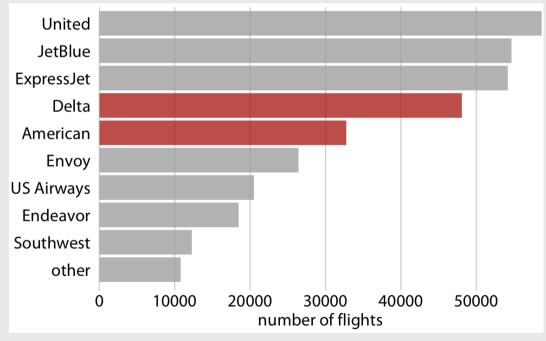

(i.e. keep it simple)

#### Make charts for the generals

(i.e. keep it simple)

## Build up towards complex figures

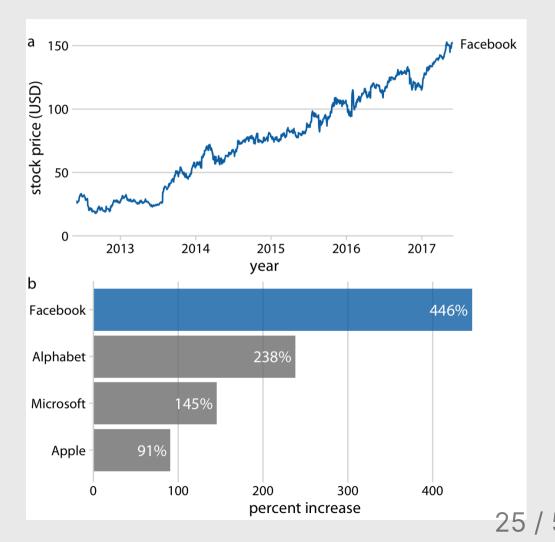

source

## Build up towards complex figures

#### Be consistent, but don't be repetitive

## Week 14: Story Telling

- 1. Telling a story
- 2. Designing slides
- 3. Giving a talk
- 4. "Final" thoughts

## Hitchcock's rule

#### Hitchcock's rule

The size of any object in your frame should be proportional to its importance to the story at that moment

Watch this example

#### Hitchcock's rule

The size of any object in your frame slide should be proportional to its importance to the story at that moment

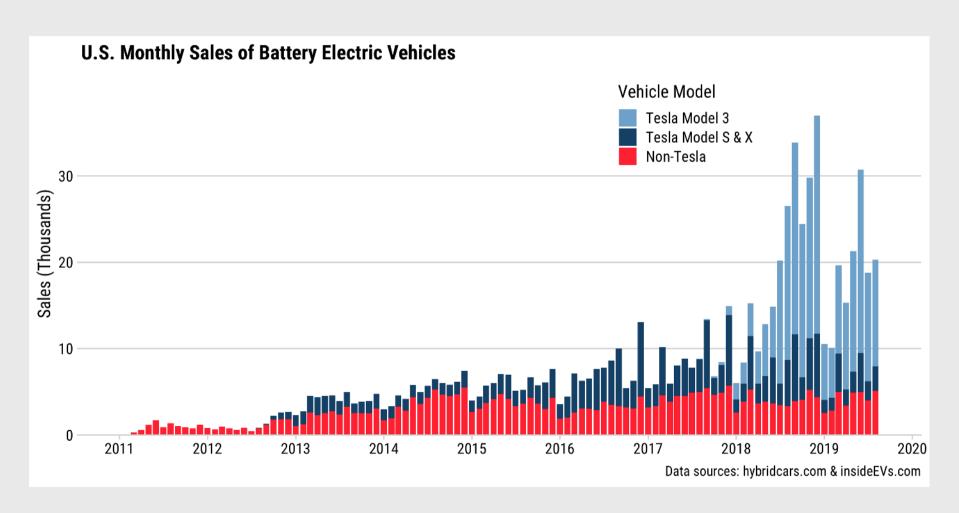

## You will read this first

and then you will read this

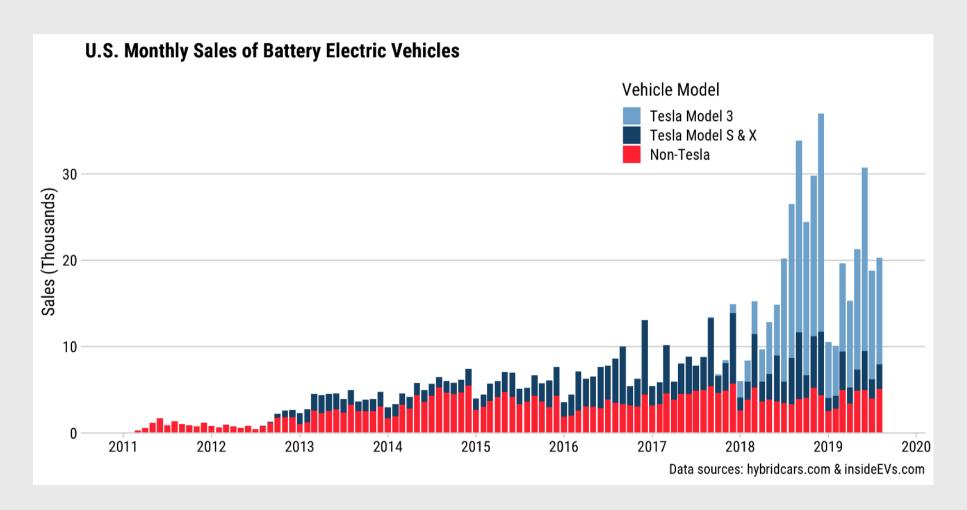

## Put main point at top and use big font size!

(see Stephanie Evergreen's blog post "So What?")

## Except for Tesla, EV adoption in the U.S. is **flat**

## Tesla's Model 3 is a Game Changer for EVs

## > 40pt font for titles

> 24pt font for all other text

(Exception: footer text can be small)

## Think of fonts as pre-attentive attributes

San-serif fonts for most text

"Italic, serif fonts for quotes"

- Prof. Helveston

# Consider using a light-colored background (tan / gray)

## Use high contrast between font and background color

Dark text on a light background works well

Light text on a dark background also works well

## Use high contrast between font and background color

Yellow text on a white background is horrible

Blue text on a black background is horrible

## Use high contrast between font and background color

```

#### Avoid fonts like

Comic Sans

Papyrus

They make your work look amateurish

### 1 slide, 1 idea

Break up main points into multiple slides

## Number your slides!

#### Remove "chart junk" from your slides

Exceptions in slider footer:

- · References / data sources
- © Symbol

### Example of an acceptable slide footer

# If you are in person, consider using handouts (1-2 pages)

## Week 14: Story Telling

- 1. Telling a story
- 2. Designing slides
- 3. Giving a talk
- 4. "Final" thoughts

## What are the first words you should say in a speech?

Watch this video to find out

#### How to start a speech

- 3. With a question that matters to the audience ("Have you ever...?")
- 2. With a shocking factoid ("There are more people alive today than have ever lived...").
- 1. Tell a story, talk about **people** ("Imagine...")

# Development and Adoption of Plug-in Electric Vehicles in China

#### Presented by:

John Paul Helveston, Ph.D.
Postdoctoral Fellow
Institute for Sustainable Energy
Boston University

January 26, 2018

3) With a question that matters to the audience:

"What's the current federal subsidy for buying an electric car in the US?"

2) With a shocking factoid

"50% of the world's EVs are made by Chinese automakers"

1) Tell a story, talk about **people** 

"Whenever I talk with people about electric cars, they usually ask about Tesla..."

#### Your turn

Brainstorm different strategies for how to start your presentation for your projects:

- 1. Tell a story, talk about **people** ("Imagine...").
- 2. With a shocking factoid ("There are more people alive today than have ever lived...").
- 3. With a question that matters to the audience ("Have you...?").

Afterwards, we will go around the room and one person from each team will practice giving their start to their presentation.

## Week 14: Story Telling

- 1. Telling a story
- 2. Designing slides
- 3. Giving a talk
- 4. "Final" thoughts

## Final Reports due 12/10 (You have 4 days left!)

- Read prompt carefully
- Be sure to include a copy of the data you're using
- Use a theme >>>
- Check for spelling errors:

```
spelling::spell_check_files("report.qmd")
```

#### Final Presentations (Due 12/12)

- We'll watch these during class period on Dec 13
- 10 projects x 10 mins each
- At the end, we'll announce awards:
  - Janitor Award: For most intense wrangling of messy data
  - Shiny Award: For single most impressive visualization

#### Final Interviews (12/11 - 12/12)

- Schedule for a 10-minute interview using this link (will also be posted in Slack)
- Suggestions (from Prof. Mazzuchi):
- 1. Bring water to drink it will calm you when you are nervous and your mouth dries up. You can also pause and think while you drink.
- 2. Don't answer right away think a bit.
- 3. Answer the question asked. Don't try to impress or I will ask more questions.
- 4. Don't say "I don't know." Try and I will help you.
